AXIS Camera Station Cloud Storage

Store recordings in the cloud

Store recordings in the cloud

AXIS Camera Station Cloud Storage offers a way to store your recordings in the cloud. To configure cloud storage:

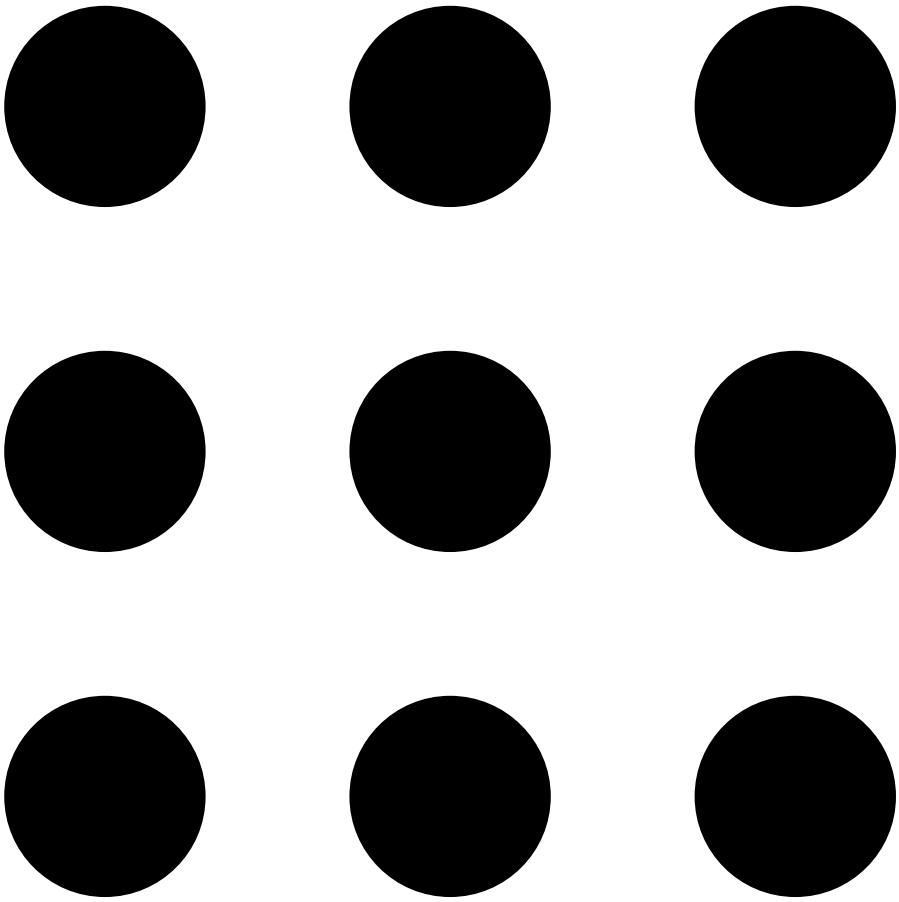
1. Enable the connected services on your devices.
   - AXIS Camera Station Edge: See *Enable connected services on your devices in the AXIS Camera Station Edge user manual* for more information.
   - AXIS Camera Station Pro: See *Configure connected services in the AXIS Camera Station Pro user manual* for more information.
2. Activate cloud storage for the organization. See *Activate cloud storage for an organization on page 2* for more information.
3. Turn on cloud storage for your individual cameras. See *Turn on cloud storage for your individual cameras on page 4* for more information.

For AXIS Camera Station Cloud Storage to connect to required services, you need to allow some traffic in the firewall. See *Firewall configuration on page 6* for more information.

Store recordings in the cloud

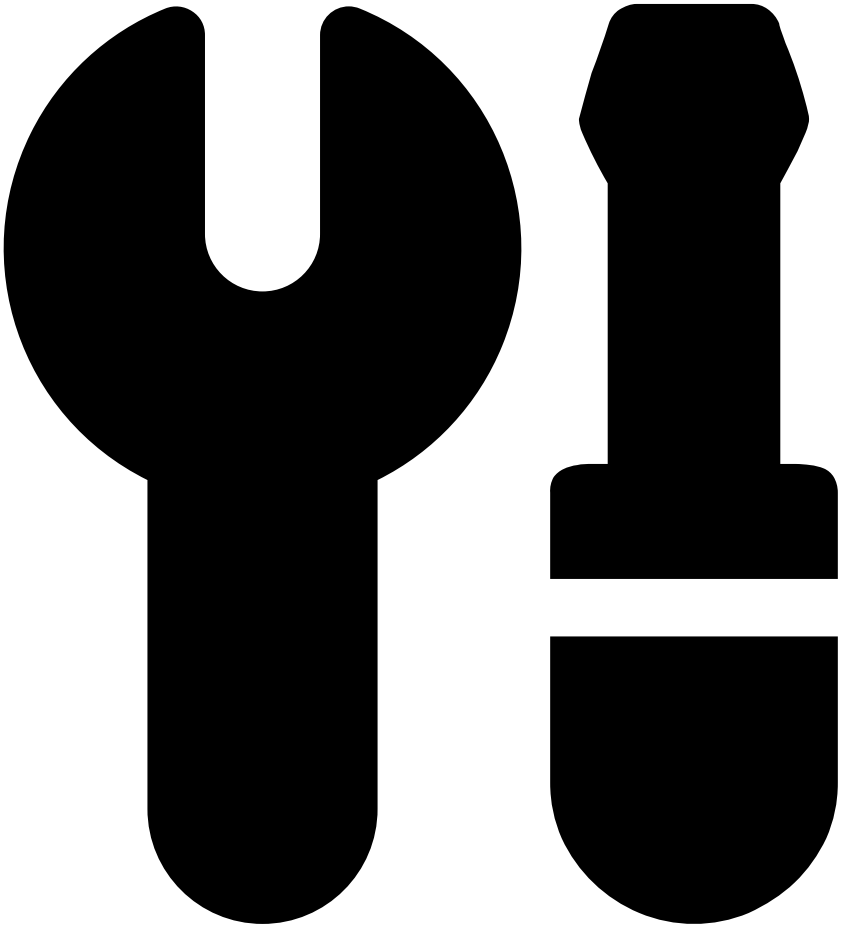
Activate cloud storage for an organization

1. Open the My Systems menu



.

2. Open



Cloud storage.

3. Click **Activate** and follow the on-screen instructions.

Store recordings in the cloud
