AXIS Audio Manager Edge - AXIS OS 11.11

AXIS Audio Manager Edge - AXIS OS 11.11

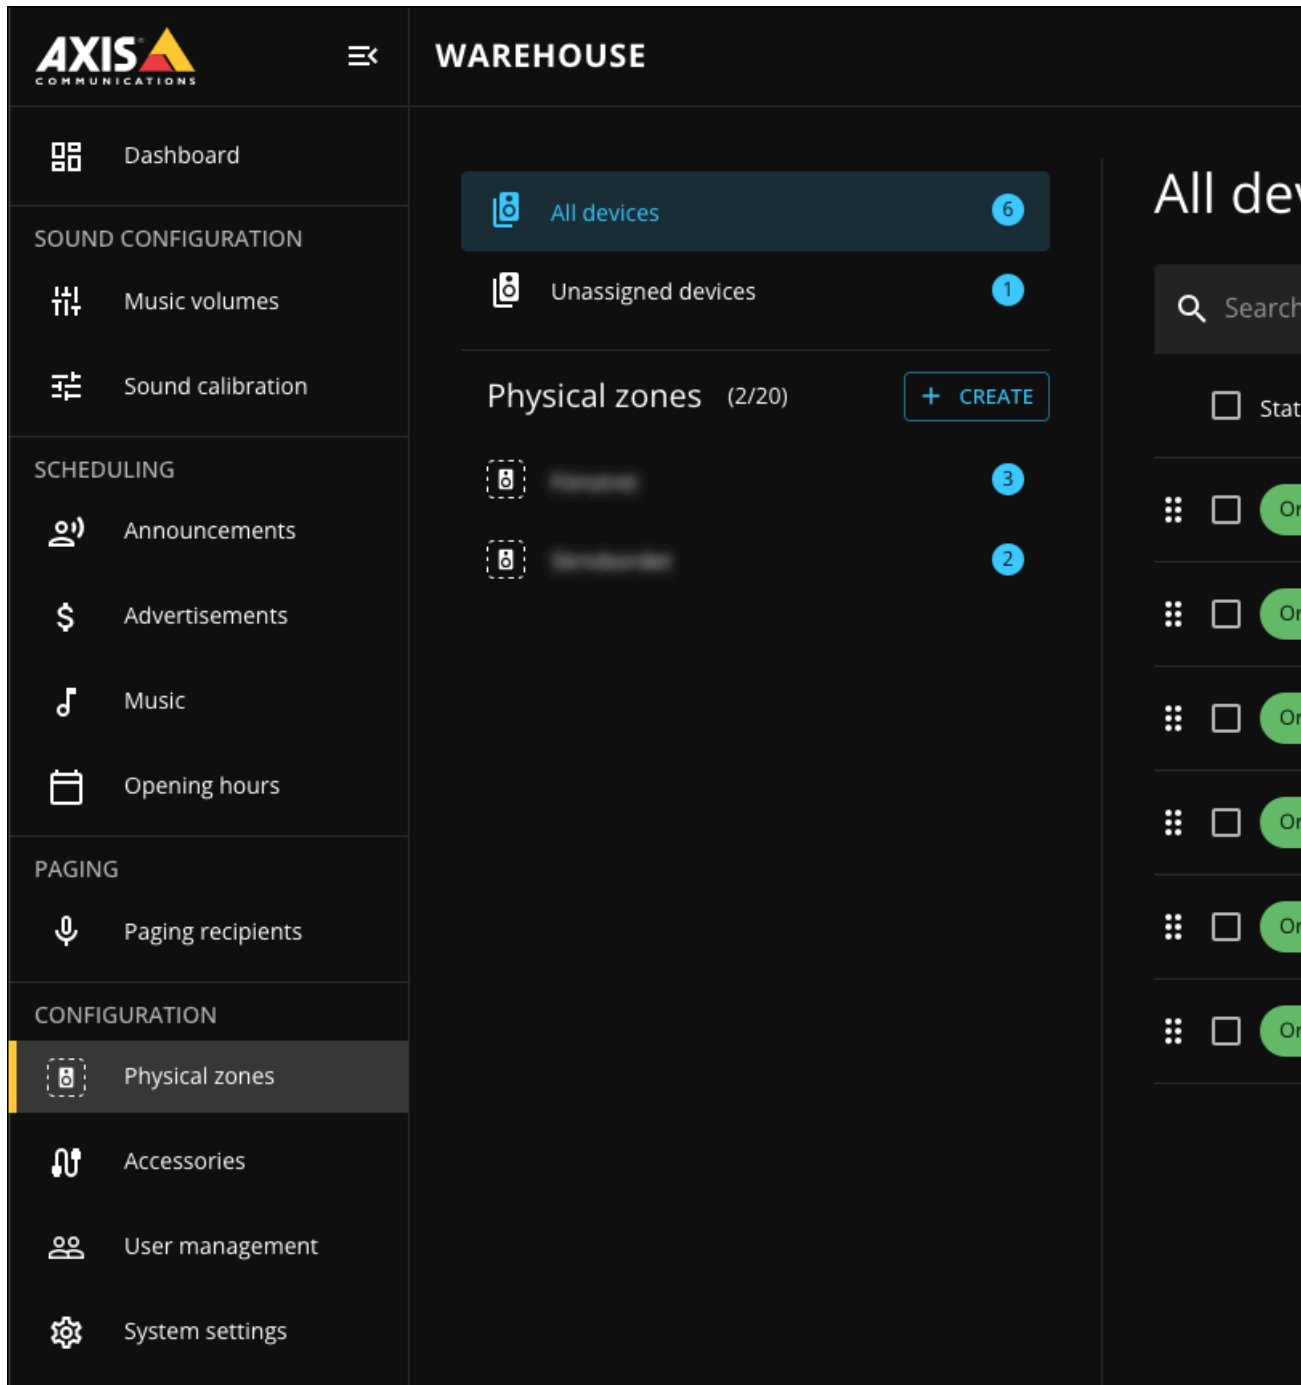

July, 2024

- Physical zones

A new "All devices" page has been added for physical zones. This gives you a convenient overview of all devices in the audio site. It is also where you now find your unassigned devices.

- **Paging sources**

Paging sources has been renamed to **paging recipients**. Together with this name change, we took the opportunity to make the configuration of paging recipients easier.

AXIS Audio Manager Edge

AXIS Audio Manager Edge - AXIS OS 11.11

The screenshot displays the AXIS Audio Manager Edge web interface. The top left corner features the AXIS Communications logo and a hamburger menu icon. The main header area is labeled 'WAREHOUSE'. The left sidebar contains a navigation menu with the following sections and items:

- Dashboard
- SOUND CONFIGURATION
 - Music volumes
 - Sound calibration
- SCHEDULING
 - Announcements
 - Advertisements
 - Music
 - Opening hours
- PAGING
 - Paging recipients** (highlighted)
- CONFIGURATION
 - Physical zones
 - Accessories
 - User management
 - System settings

The main content area is titled 'Paging recipients' and includes a search bar with the placeholder text 'Search for paging recipients'. Below the search bar is a table with the following columns: Priority (with an upward arrow), Name, and Targets. The table contains five rows, each with a priority number (1-5) and a corresponding name and target area.

Priority ↑	Name	Targets
1		
2		
3		
4		
5

April, 2024

- External RTP paging recipient

There's a new paging recipient called 'External RTP' that makes it possible to page audio using an external RTP stream.
