AXIS Audio Manager Edge - AXIS OS 11.11

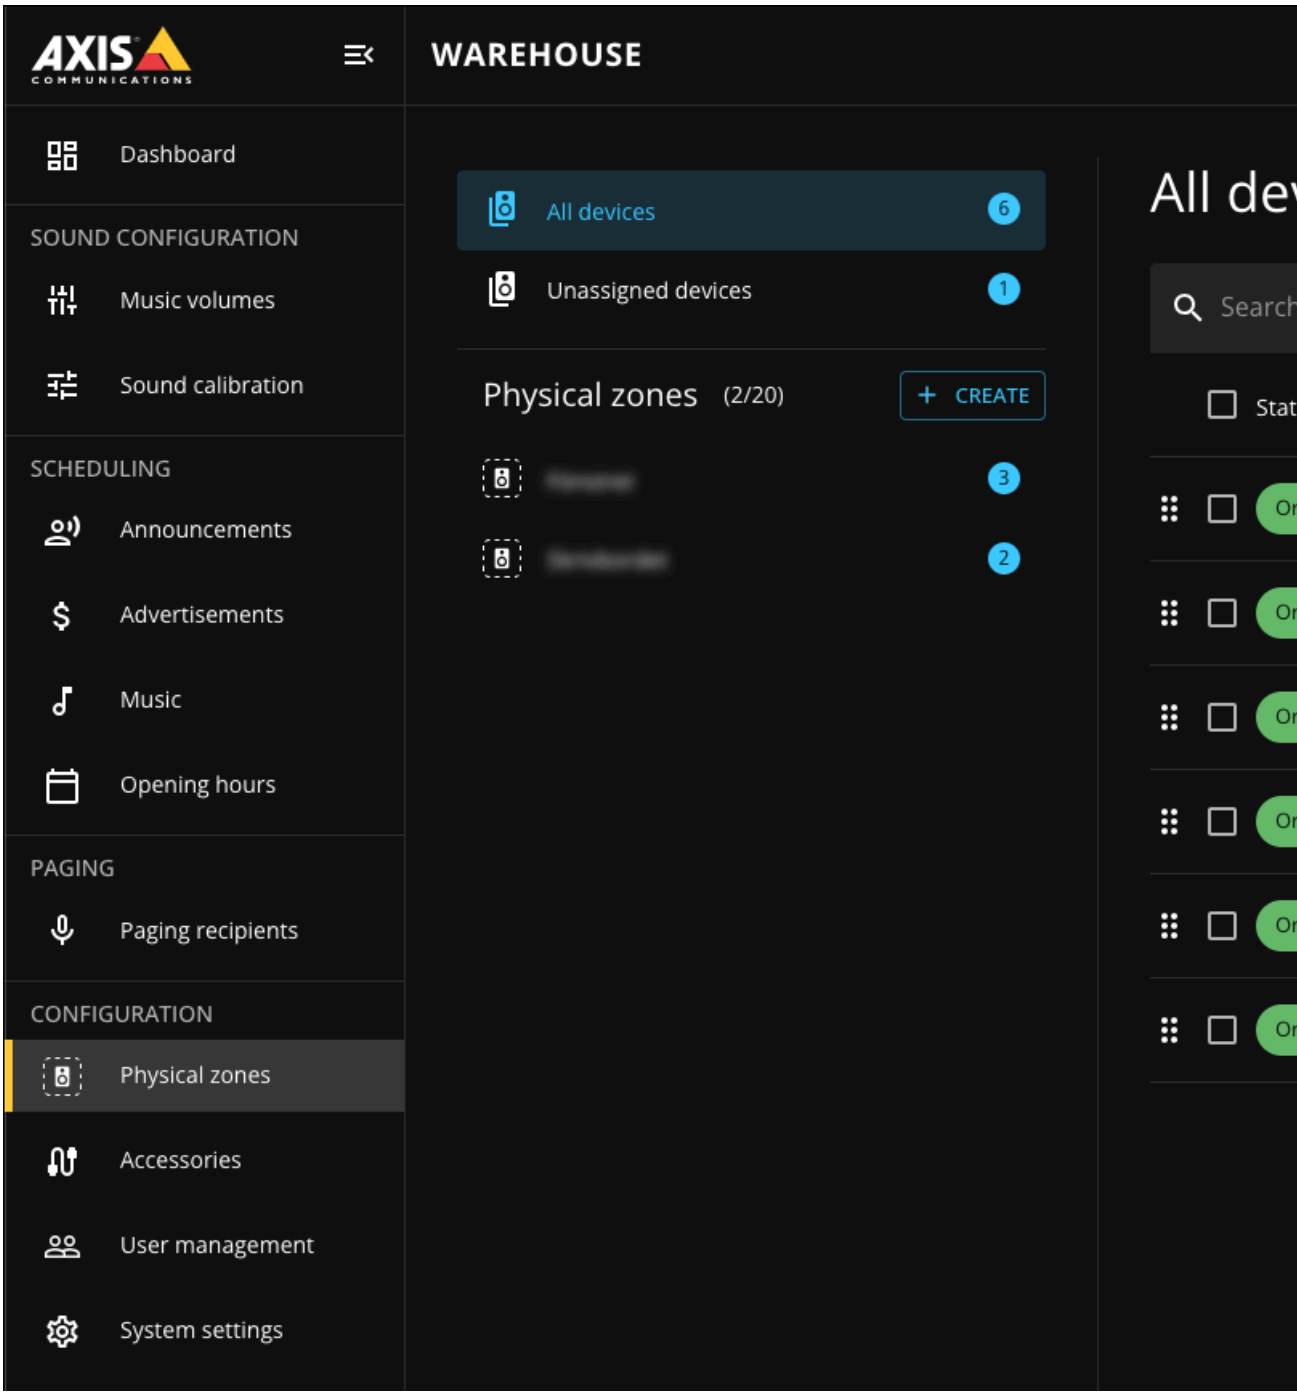
AXIS Audio Manager Edge - AXIS OS 11.11

July, 2024

- **Physical zones**

  A new "All devices" page has been added for physical zones. This gives you a convenient overview of all devices in the audio site. It is also where you now find your unassigned devices.

AXIS Audio Manager Edge - AXIS OS 11.11

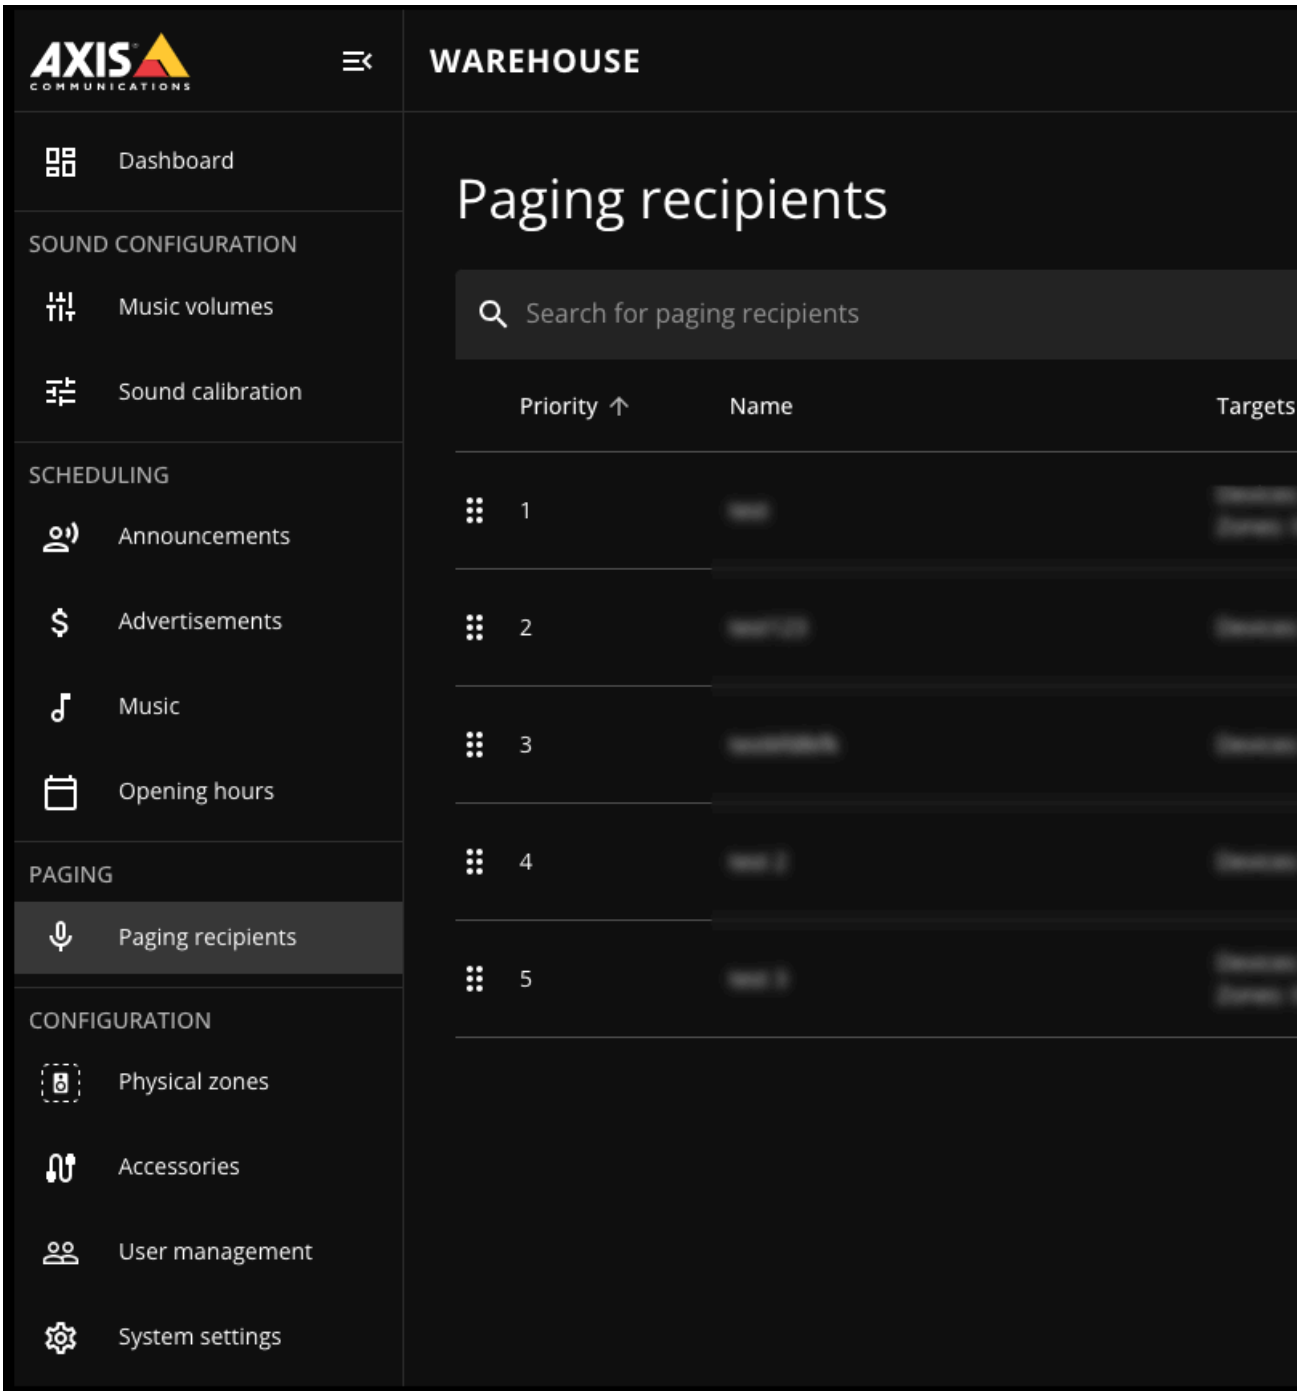


See *help.axis.com/en-us/axis-audio-manager-edge#set-up-physical-zones*

- **Paging sources**

  Paging sources has been renamed to **paging recipients**. Together with this name change, we took the opportunity to make the configuration of paging recipients easier.

AXIS Audio Manager Edge - AXIS OS 11.11



See *help.axis.com/en-us/axis-audio-manager-edge#set-up-a-paging-recipient*

AXIS Audio Manager Edge

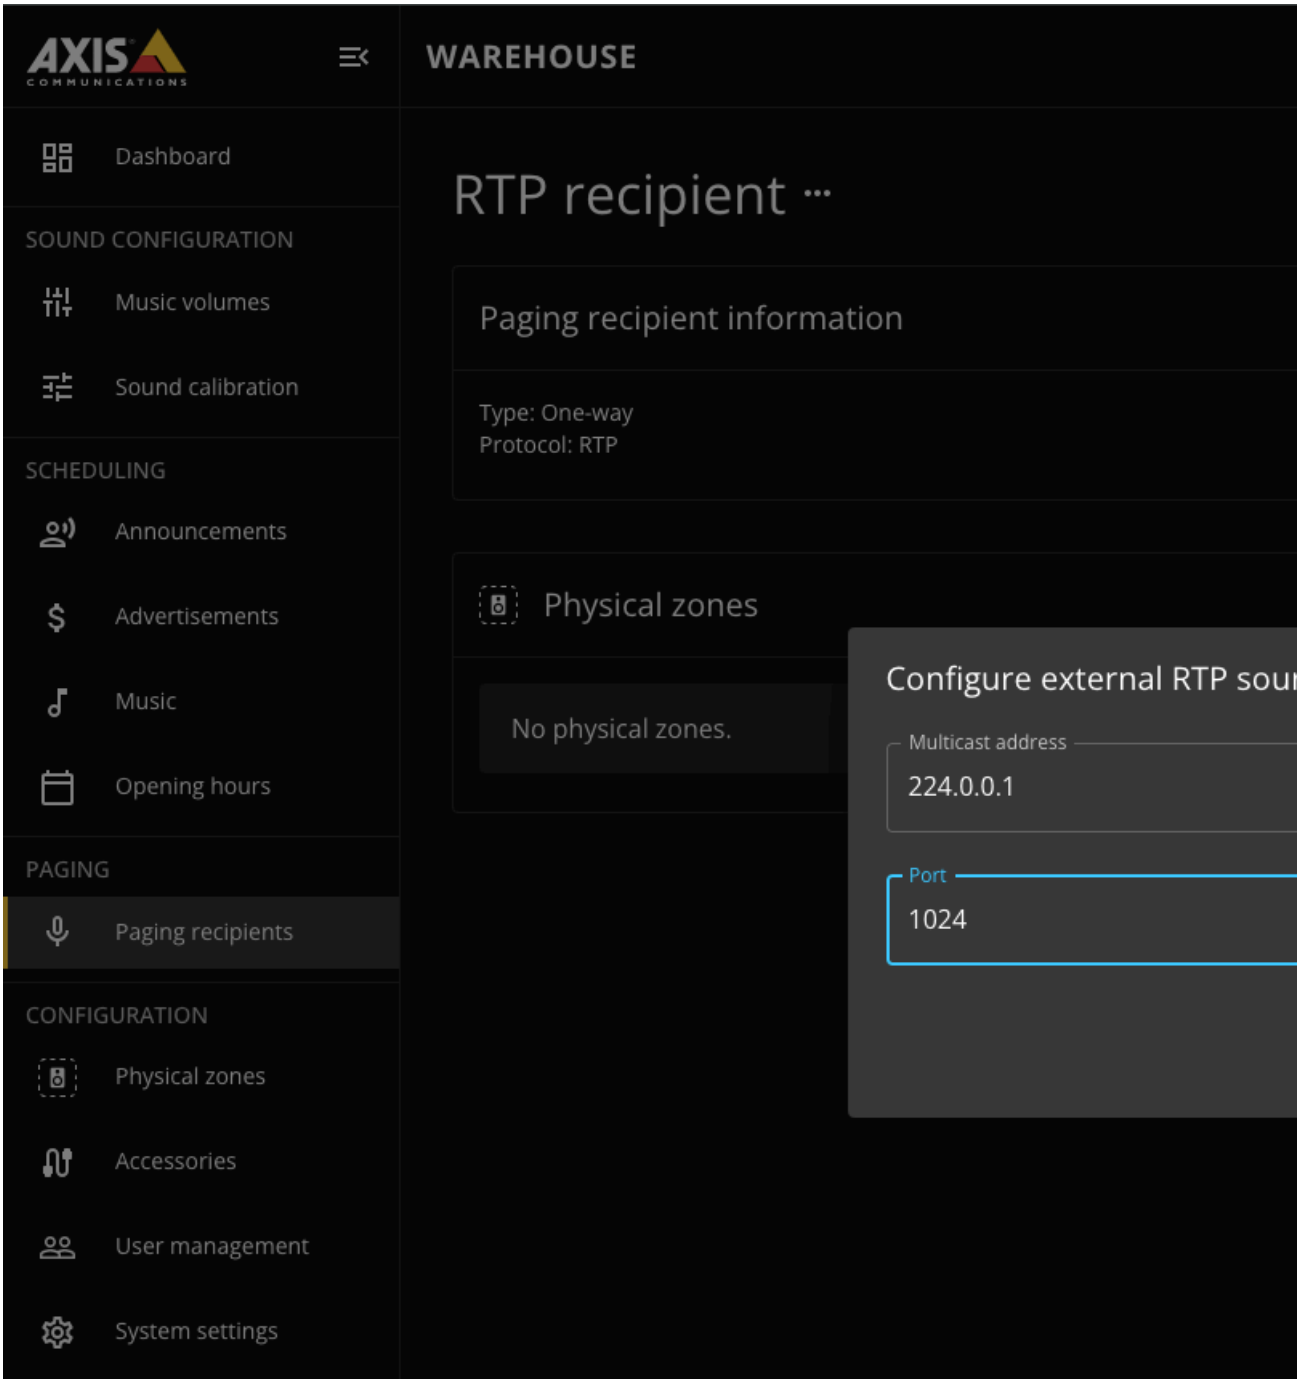
AXIS Audio Manager Edge - AXIS OS 11.10

AXIS Audio Manager Edge - AXIS OS 11.10

April, 2024

- **External RTP paging recipient**

  There's a new paging recipient called 'External RTP' that makes it possible to page audio using an external RTP stream.



AXIS Audio Manager Edge - AXIS OS 11.10

See *help.axis.com/en-us/axis-audio-manager-edge#paging-with-rtp-stream*
