

## **AXIS Audio Manager Edge**

**Quoi de neuf**

# AXIS Audio Manager Edge

## AXIS Audio Manager Edge - AXIS OS 12.0

---

### AXIS Audio Manager Edge - AXIS OS 12.0

Octobre 2024

- Ajout d'un point de terminaison de l'API cible qui permet d'obtenir l'état en ligne/hors ligne des dispositifs.

# AXIS Audio Manager Edge

## AXIS Audio Manager Edge - AXIS OS 11.11

---

### AXIS Audio Manager Edge - AXIS OS 11.11

Juillet 2024

- Zones physiques

Une nouvelle page « All Devices » (Tous les dispositifs) a été ajoutée pour les zones physiques. Cela vous offre un aperçu pratique de tous les dispositifs du site audio. Vous y trouverez également vos dispositifs non assignés.

- Sources de radiomessagerie

Les sources de messages ont été renommées en destinataires de messages. Conjointement à ce changement de nom, nous avons profité de l'occasion pour simplifier la configuration des destinataires de messages.

## AXIS Audio Manager Edge - AXIS OS 11.11

The screenshot displays the AXIS Audio Manager Edge web interface. The top left corner features the AXIS Communications logo and a hamburger menu icon. The main header area is labeled 'WAREHOUSE'. The left sidebar contains a navigation menu with the following categories and items:

- Dashboard
- SOUND CONFIGURATION
  - Music volumes
  - Sound calibration
- SCHEDULING
  - Announcements
  - Advertisements
  - Music
  - Opening hours
- PAGING
  - Paging recipients** (highlighted)
- CONFIGURATION
  - Physical zones
  - Accessories
  - User management
  - System settings

The main content area is titled 'Paging recipients' and includes a search bar with the placeholder text 'Search for paging recipients'. Below the search bar is a table with the following columns: Priority (with an upward arrow), Name, and Targets. The table contains five rows, each with a priority number (1-5) and a corresponding name and target area.

Priority ↑	Name	Targets
1		
2		
3		
4		
5

### AXIS Audio Manager Edge - AXIS OS 11.10

Avril 2024

- Destinataire de messages RTP externe

Un nouveau destinataire de messages appelé « RTP externe » permet d'envoyer des messages audio à l'aide d'un flux RTP externe.

The screenshot displays the AXIS Audio Manager Edge web interface. The left sidebar contains a navigation menu with the following items: Dashboard, SOUND CONFIGURATION (Music volumes, Sound calibration), SCHEDULING (Announcements, Advertisements, Music, Opening hours), PAGING (Paging recipients), and CONFIGURATION (Physical zones, Accessories, User management, System settings). The main content area is titled 'WAREHOUSE' and shows 'RTP recipient ...'. Under 'Paging recipient information', it displays 'Type: One-way' and 'Protocol: RTP'. Below this, the 'Physical zones' section shows 'No physical zones.' A modal window titled 'Configure external RTP source' is open, showing a 'Multicast address' field with the value '224.0.0.1' and a 'Port' field with the value '1024'.
